TAX SESSIONS
OPEN IN S. L.

Men From All Parts of United States Attending Convention

SALT LAKE, Sept. 7.—Governor Simon Bamberger, in a ringing address, welcomed the members of the National Tax association to Salt Lake last night for their thirteenth annual convention. Men from all parts of the United States are attending the sessions.

"I realize," said Governor Bamberger, "that I am talking to the men who are the brains of the forty-eight states of the union, and of the territories." In these words the governor of Utah, speaking at the Hotel Utah, summed up his idea of the importance of the assembly which began last night, and which will continue until Friday evening in almost continuous session. The proceedings of last night were largely informal in character for the purpose of getting acquainted. The business session of the convention begins today, and the initial meeting was to get out of the way a certain amount of detail that must be disposed of and to leave the way clear for earnest work on the part of the delegates.

The session was marked by the largest and also the most representative attendance at any initial session of the association. Governor D. V. Davis of Idaho, who was called to the chair by Nils P. Haugen, president of the organization, announced that delegates had registered from thirty-eight states of the union, in addition to representatives from the District of Columbia, the territory of Hawaii, Porto Rico and Canada. Representatives from other states were known to be on the way, and it is the belief now that when all the delegates have registered there will be more states represented at the Salt Lake convention than at any other meeting of the association.

With the exception of two sessions to be held at Saltair today, the association will meet at the Hotel Utah. Numerous entertainment features have been provided for both delegates and their wives and friends, but the determination of the convention, as expressed last night, was for four days of hard work, with comparatively little relaxation for the delegates themselves.

TEAM OF UTAH MINERS
ENTER DENVER CONTEST

SALT LAKE, Sept. 7.—Three teams of Utah miners are on their way to Denver to take part in the mine rescue contest which will feature the mine convention at that city September 9. One of the teams is composed of the best men from the Highland Boy, Utah Copper, Utah Apex and United States mines at Bingham. Another is made up of men from the Springs Canyon Coal company, the Peerless Coal company and the Liberty Coal company. The third team is from the mines of the United States Fuel company.

Another team was scheduled to go from the Utah Fuel company's mines, but has been withdrawn because of a fire now smoldering in one of the company's properties.

Two Wyoming teams, one from Cumberland and one from Rock Springs, will also be entered in the contests. Among the officials who will go to Denver for the convention are Carl A. Allen, state mine inspector for the Utah industrial commission, Dr. A. L. Murray, in charge of mine rescue car No. 11; George Murphy, superintendent of the Spring Canyon Coal company, and R. M. McGraw, general superintendent of the United States Fuel company.

REPORTS PREVALENCE
OF SCABIES IN IDAHO

SALT LAKE, Sept. 7.—Dr. P. E. Murray, chief of the Utah division of the United States bureau of animal industry, has reported a prevalence of scabies among sheep in southern Idaho. He claims that a strict quarantine against sheep in that district should be maintained to prevent the sheep from grazing in Utah during the coming winter. A quarantine was in effect last winter, but in some instances was disregarded.

BRIGHAM GUARDSMAN
IS MADE LIEUTENANT

BRIGHAM, Sept. 7.—Ernest Freeman has been appointed second lieutenant of D troop, Utah National Guard cavalry.

HUNTERS FIND
CHILD'S BONES

Skeleton Discovered Under Cowpath on Salt Lake Farm

SALT LAKE, Sept. 7.—Mystery surrounds the discovery of a skeleton, presumably that of a child six or seven years old, which was discovered in a pasture of the old Church farm, at Twenty-seventh South and Third West streets yesterday morning at 10 o'clock, by hunters.

The skeleton was directly in a cow path and had been trodden in the mud twice daily. Deputy Sheriff J. A. Turnbull was notified of the discovery and dug the bones from the marshy ground, later removing them to the county jail for identification.

William Colbie, 2145 South West Temple, and his nephew, Sid Bird, were attracted by what seemed to be a round white rock protruding from the ground. Investigation proved that the object was a skull. A hasty examination revealed leg bones, shrouded with black stockings, sticking upright from the ground. Deputy Turnbull dug to the depth of eighteen inches over an area of several feet, uncovering a nearly complete skeleton.

The only child of this age who has been reported missing is Lester McAllister, 6-year-old son of F. M. McAllister, who was thought to have been drowned in the duck pond at Liberty park. Draining of the pond disproved this theory.

It is impossible for the father or brother of the missing boy to identify the bones. A second search is being made today to recover clothing that may be of assistance in identifying the skeleton.

LABOR DAY OBSERVED
BY POCATELLO FOLKS

POCATELLO, Sept. 7.—Labor Day was generally observed throughout the city yesterday, all places of business being closed in accordance with the proclamation issued by Governor Davis.

The leading feature of the day was the gigantic parade, which started on the west side at 1 o'clock and after marching through the business section of the town, disbanded at the high school grounds, where addresses were delivered by R. H. Parks of Boise, president of the Idaho Federation of Labor, T. A. Walters of Caldwell, Democratic candidate for governor, Rev. Harry S. Hamilton of Pocatello, and Mayor W. F. Whitaker.

Musical numbers were rendered by the Pocatello-Bannock band, the parade was in charge of A. H. Brown, fire fireman, department of Railway Trainmen, Switchmen's union, railway clerks, railway signalmen, maintenance of way men, railway electricians, International Association of Machinists, International Brotherhood of Boilermakers and the speakers car.

Second division—Gate City band, Red Carriers' union, building trades union, common laborers, Bachelors' union, Carpenters and Joiners of America, Painters' union, Lathers' union, Plasterers' union, electrical workers, Plumbers' union, Teamsters and Chauffeurs' union, Laundry Workers' union, International Typographical union, printing pressmen, Barber's union, Meat Cutters' union, Cooks' and Waiters' union, Musicians' union.

It was evening those who had gathered to celebrate the day were given a dance at Columbia hall by the Central Labor Council.

LIQUOR DISCOVERED
IN ITS SECRET CACHE

SALT LAKE, Sept. 7.—Police swept down upon Woodlawn, a roominghouse at 55th West First South street last night and seized fifteen pints of whiskey in a cache behind a clothes hook board in the wall of a closet. George Jones, 39, was arrested for violation of the prohibition law and was released on \$200 bail.

An investigation of the officers' efforts were made by the occupants of the place to resist their entrance. It was necessary to batter the door from hinges before the liquor could be reached.

Mrs. Milly Vornovich was arrested last night on a charge of violating the prohibition law when members of the police squad found four quarts of whiskey nailed in the floor of her soft drink parlor at 454 West Second South street. She was released on \$200 bail. A few hours prior to her arrest the woman had complained to the police that her husband had threatened to kill her on numerous occasions, and that she would prefer death against him. He is held in the city jail.

YOUTH FROM S. I. S.
CAUGHT IN CAPITAL

SALT LAKE, Sept. 7.—"Bibi" Chapman, 18, and Orville Hopkins, 16, both of whom are wanted by the authorities on different charges, were arrested yesterday afternoon by Lieutenant D. H. Clayton, when he saw the pair alight from the tender of an incoming Los Angeles and Salt Lake railroad passenger train at Third West and Eighth South streets.

Chapman is said to be wanted by the state industrial school at Ogden. Lieutenant Clayton was driving in an automobile when he recognized the pair as they passed him sitting in the water tank. The recognition was mutual, for both Chapman and Hopkins commenced running. After the officer fired three shots, the youths allowed themselves to be taken into custody.

Hopkins is suspected by the Salt Lake police of having committed a burglary here several months ago.

SALT LAKE SCOUTS
CLOSE SUMMER CAMP

SALT LAKE, Sept. 7.—Members of Boy Scout troop No. 51 have officially closed a successful summer season of outings at their cabin, "The Great Stone Face," in Mill Creek canyon.

CUB IS LATEST OFFICE PET

NEW YORK.—Here's the very latest in office pets. Park Commissioner Gallatin is shown at work at his desk with a month-old lion cub playing affectionately on his shoulder.

LIST OF LABOR
DAY DISASTERS

DENVER, Colo., Sept. 7.—William Simmons, 40, of Boulder, Colo., injured in the head-on collision of two interurban cars yesterday, died at the county hospital early today, making the total dead twelve. Doctors said the injuries of five others probably would be fatal.

NIAGARA FALLS, N. Y., Sept. 6.—Two women and a man were crushed to death and two men were injured this afternoon when a slide of shale forced out a bridge leading to one of the stairways in the Cave of Winds under Niagara Falls. A hundred or more tourists who were in the cave at the time, had narrow escapes, many being bruised and cut by the falling rocks.

The dead and injured were members of a party of tourists just completing a tour of the cave. With a guide leading, the party was in the middle of one of the four bridges in the cave when the slide came, its noise drowned by the roar of the cataract. The guide was not touched.

To recover the bodies of the dead it was necessary to take a rowboat from the Maid of the Mist steamer, which had been run up as near as possible to the falls and cave. It was a hazardous venture, but the rowboat crew finally brought the bodies out of the pool and regained the steamer.

The accident is the first of the kind that has occurred in the cave since the first stairway was built in 1882. There have been slides before but only in the winter or early spring.

ROCK SPRINGS, Wyo., Sept. 7.—Marking three mishaps at the Rock Springs landing field, United States mail planes 194 and 171 were badly damaged yesterday. Pilot Albert H. Dwyer, 171 and Pilot Pickup of plane 191 escaped injury.

A report of the mishap was given out by G. R. Johnston, superintendent of the Salt Lake control, following receipt of a telegram from A. R. Dunphy of Cheyenne, Wyo.

The dispatch said both aviators had passed the Rock Springs landing field and attempted to land.

Mr. Johnston said he did not know when the third mail plane would arrive.

Pilot H. Hefron, who reached Salt Lake and started on the return trip, is at Craig, Colo., presumably driven off his course by a high wind.

SPANISH FORK, Sept. 7.—Charles C. Hood, 46 years old, and William Christmas, 26, both of Spanish Fork, were severely injured yesterday when the automobile in which they were driving overturned near the Strawberry project, 40 miles from here. The car went over an embankment and slid 45 feet before it came to a stop.

Hood suffered painful contusions and possible internal injuries while Christmas suffered a broken collar bone and numerous bruises.

An unnamed member of the party summoned Dr. J. W. Hagan of Spanish Fork who went immediately to the scene of the accident. The men were removed to the hospital at Provo.

DETROIT, Sept. 6.—Myron L. Timney, former army aviator, fell 500 feet to his death today while performing aerial acrobatics at the state fair grounds.

In attempting to catch a rope ladder on which he was to climb from one plane to another flying above him, he missed his hold and plunged from the top of his machine. A crowd of 200,000 witnessed the accident.

Timney was in the flying service at a Texas training field when the war ended.

NIAGARA FALLS, N. Y., Sept. 6.—Seven persons were injured, none seriously, this afternoon in a collision of two trains of trolley cars in the Niagara gorge. Scores of other passengers on the rear trailers of one train saved themselves by jumping when they saw the other train bearing down upon them. A break in the trolley line caused the first train to stall.

CEDAR RAPIDS, Ia., Sept. 7.—Mrs. W. J. Delaney, Cedar Rapids, was killed, Mrs. C. J. McCabe, Fairfax, Ia., died en route to a hospital at Iowa City, and Vincent Thoman and Mrs. F. H. Cahill, also of Fairfax, are in a hospital at Iowa City, seriously injured as the result of a smashup ten miles north of Iowa City today when an automobile driven by Thoman was struck by a Cedar Rapids and Iowa City interurban.

ST. LOUIS, Mo., Sept. 6.—Crashing head-on into their car stalled on the railroad track near Mountain Lake, Minn., 16 miles this side of Winifred, this afternoon, a passenger train in the wreckage, an east bound Omaha passenger train instantly killed Mr. and Mrs. Clark Wagoner, who live on a farm south of St. Louis, and Roy Dobinski of this city, and fatally injured Frank Dobinski who died an hour later.

SALT LAKE, Sept. 7.—William Dunlap, 51 years of age, formerly a resident of Salt Lake for years, but more recently of Seattle, Wash., was killed in an automobile accident Sunday night in Diamond Fork canyon, near

The boys, together with two score friends, held a closing celebration, marking the first anniversary of their occupancy of the outing quarters.

PICTURE MAKES
BIG IMPRESSION

Manager Skinner Receives Letter Telling of Virtues of "Humoresque"

How a motion picture production has made an impression on an Ogden musician is set forth in a letter received by Manager H. E. Skinner of the Alhambra theatre from Frederic Moss regarding the early appearance at the Alhambra of the film, "Humoresque."

The letter follows: "My Dear Mr. Skinner: 'I see that you have booked 'Humoresque' for the near future at the Alhambra. I feel like just dropping you this line to tell you that while in Los Angeles a few weeks ago, I saw this picture, and it is without doubt, in my mind, one of the most wonderful pictures ever filmed. The story is wonderfully beautiful and human, and the cast is the most capable and artistic that I have ever seen gathered in a single production. The very highest art is manifested by every one of the distinguished people in the cast, and the direction is superb."

"I went to a matinee performance, and found a double line one-half a block long, of people waiting for admittance; and this has been the continuous record of the attendance at Gramham's Rialto theatre from the opening night. I believe it is still running in its fourth week."

"I am glad you have succeeded in booking it, and that I will have the opportunity of seeing it again."

"Sincerely yours," "FREDERIC MOSS."

LARGE POLICIES
PAID IN OGDEN

Total Amount of Life Insurance Distributed in 1919 Totalled \$220,000

Life insurance distributions in Ogden during 1919 amounted to \$220,000, according to compilations by the Insurance Trusts, a national periodical devoted to the underwriting business of the country.

The largest payments in Ogden were Albert Seaworth, \$25,000; F. Griswold, \$13,017, and Fred J. Kiesel, \$12,121.

Mr. Griswold was formerly a teller in the Farmers' Loan and Trust company, and died while serving in the engineering corps in France. Seaworth and Kiesel were Ogden capitalists.

The largest policy paid in the United States was carried by the late R. C. Erick of New York in the sum of \$400,000. The total payments by insurance organizations in the United States and Canada was \$96,332,000, an increase of \$11,500,000 over 1918.

FISHING BY AIR.

VANCOUVER, B. C.—Airplanes are to be used by the Canadian dominion government to work from Vancouver on a patrol of British Columbia fishing waters, Colonel J. H. Cunningham, government inspector of fisheries announced recently. Poachers or fishermen using illegal methods will be sought out by the aerial patrols. Colonel Cunningham said the cost of the aerial patrol would not be as great as the cost of the launch patrol operated at present.

The one government department that can make no report as to how it spends its appropriations, is the secret service.

Fire losses in this country and Canada during July, it is estimated, totaled \$25,135,825.

Pickpockets Busy
at Lagoon Labor Day

Pickpockets working at Lagoon yesterday obtained a purse containing \$370 in currency and an \$80 check from Frank N. Sherry, 854 South First West street, and robbed C. S. Beary, 329 Richmond apartment, of a pocketbook containing \$15 and a return ticket to Kansas City.

CENSUS REPORTS

WASHINGTON, Sept. 7.—Galveston, Tex., 8,645; increase 1,024, or 12.4 per cent.
Key West, Fla., 12,039; decrease 906, or 4.5 per cent.
Del Rio, Tex., 10,589; incorporated since 1910.
Port Chester, N. Y., 16,573; increase 2,764, or 29.4 per cent.
Beloit, Wis., 21,284; increase 6,159, or 49.7 per cent.
Herrin, Ill., 10,986; increase 4,125, or 69.1 per cent.

PEACE TREATY ENDS
BACK-FENCE WAR

TERRE HAUTE.—"Yes, sah, Judge, I frowed bricks at dat man. But when he comes along wid a shotgun, I jes' up an' let'er." Margaret Ray was speaking. Dat old gun's no' count anyhow, Judge—she aint even gotta trigger," said Joe Riley. The judge sent them home after they signed a back-fence peace treaty.

Thistle. The accident occurred near what is known as five-mile post.

CLINTON, Ind., Sept. 6.—Three men were killed here today by a gas explosion in the Submarine mine while they were feeding the mine mules about 200 feet from the hoist. The bodies were recovered by a rescue party. Seventeen men were killed.

No hot towels—
No rubbing

THE secret of softening the beard lies in emulsifying the oil that coats the hair of the beard.

And this is what Palmolive Cream does. It removes the oil-coat quickly, so the water penetrates the stiffest beard. This makes the beard wax-like and every hair easy to cut.

You don't have to use hot towels or rub with your fingers as you have to do with the ordinary shaving cream or soap. And hot towels, as you may know, make the skin too tender.

Both lather and lotion

Palmolive cream is also a lotion. For it contains Palm and Olive oils. Thus it gives to the face a satin smoothness when shaved.

Note this also. Palmolive stays moist and foamy 10 minutes. It does not dry up on the face as does the ordinary cream. And a mere bit is ample for a shave. For Palmolive multiplies itself in lather 250 times. A cream so active, as you know, has never been heard of before. There's enough for 152 shaves in our 35c size.

Try it free

Learn what it means to use Palmolive. How easier you shave. How much quicker. And how delightful it makes a shave. You will be astonished with the difference between this and your present way of shaving.

A trial tube of Palmolive will show you an altogether new kind of shave. And this tube is yours for the asking. Mail the coupon. Clip it out now while you are thinking of it.

Large size tube at your druggist's, 35c

TO SHIP FLOUR MILL

ALMOST TO ARCTIC CIRCLE

PORTLAND, Ore., Sept. 7.—A local milling house has sold a flour mill to be installed 175 miles south of the Arctic circle, in Alaska. This will be the first flour mill to be sent so far north. The acreage of wheat in Alaska has been increasing so steadily and the department of agriculture has been so successful in developing a hardy wheat which matures in ninety days, that the growers have felt the need of a mill. The plant, which is a steam operated mill, will be shipped to Seattle, thence by steamer to St. Michael, south of Nome, where it will be carried by boat up the Yukon river, 836 miles to the mouth of the Tanana river, and thence 250 miles to Fairbanks. The mill has been purchased by the Tanana Valley Agricultural association, and its capacity is 25 barrels a day.

WARNINGS OF FROST.

LOS ANGELES.—Inaccurate thermometers have caused citrus growers so much loss that the Los Angeles chamber of commerce, according to Dr. Ford A. Carpenter, of the department of meteorology, and aeronomics, has decided to open a new department where the instruments may be tested. The chamber has received from Washington, D. C., a thermometer which was in the testing room six months. With this as a standard, instruments sent in by citrus growers will be tested for each degree from 24 to 100. The variance at each point will be noted and recorded for the benefit of the grower.

FISHING BY AIR.

VANCOUVER, B. C.—Airplanes are to be used by the Canadian dominion government to work from Vancouver on a patrol of British Columbia fishing waters, Colonel J. H. Cunningham, government inspector of fisheries announced recently. Poachers or fishermen using illegal methods will be sought out by the aerial patrols. Colonel Cunningham said the cost of the aerial patrol would not be as great as the cost of the launch patrol operated at present.

The one government department that can make no report as to how it spends its appropriations, is the secret service.

All Fat People
Easily Reduce

The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and is still more indebted for the reduction of this harmless, effective remedy to tablet form. They are so convenient to take, and as pleasant as candy. One after each meal and at bedtime will quickly reduce your weight two, three or four pounds a week, and leave no evil effects such as loose, flabby skin and unsightly wrinkles. Eat what you like—leave exercise to the athletes—take your little tablet as directed and soon you will be your natural self, cloaked in firm flesh and trim muscles. Marmola Prescription Tablets may now be obtained at all drug stores, or by writing direct to the Marmola Co., 52 Garfield Building, Detroit, Mich., and their reasonable price—one dollar for a good size box—leaves no excuse for dieting or vile exercise to the reduction of the overfat body to normal proportions.

American Girl to
Wed Duke?

PARIS.—The Duchess de Chaulnes, who formerly was Theodora Shonts, daughter of Theodore Shonts, late president of the Interborough Rapid Transit company of New York, will wed, it is reported, Duke de Creusot. The duke is remembered here as the last lover of Gaby Deslys.

Fire losses in this country and Canada during July, it is estimated, totaled \$25,135,825.

The first successful penny newspaper in the United States was the New York Sun, established in 1833.

BEAR OIL
for HAIR

AN INDIAN'S SECRET
One of the potent ingredients of Kotaliko—for the hair—is emu oil. There are other active ingredients not found in any other hair preparation.
